

# Sublim

## Premium Sublimation Ink for Dye Transfer Applications

**Sports  
Apparel**

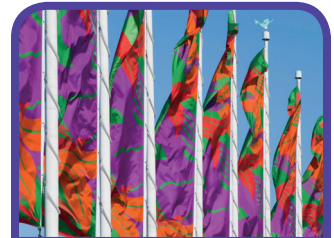

**Hard  
Surfaces**

**Fashion &  
Apparel**

**Tradeshow  
Graphics**

**Banner**

### Compatible Printhead Technology

EPSON DX4

EPSON DX5

## SubliM Advantages

- Produces superior color results with the industry's largest color gamut
- Specially formulated to provide extended run-ability with minimal maintenance and maximum uptime
- Provides better ink yield resulting in high density images with lower ink consumption
- Dries quickly to improve color uniformity and reduce waste
- Operates at high-speed print modes without sacrificing color fidelity
- High yield transfer rates with all commercially available transfer papers

## Environmental Sustainability

Aqueous Ink

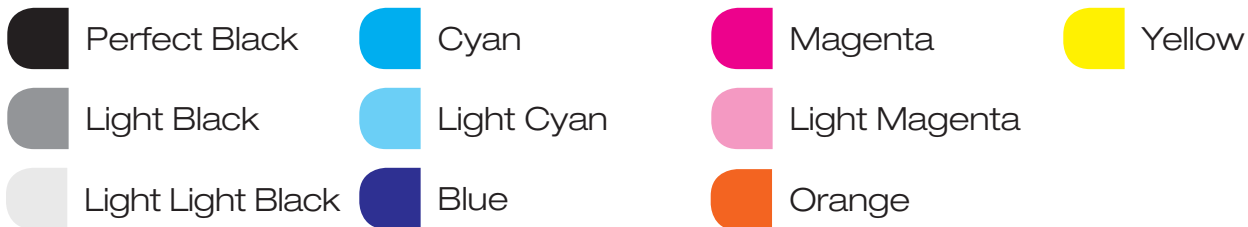

Oeko-Tex 100, RoHS and CPSIA compliant

Manufactured free of hazardous air pollutants (HAPs) & toxic air pollutants (TAPs)

Formulated without VOCs for a safer work environment

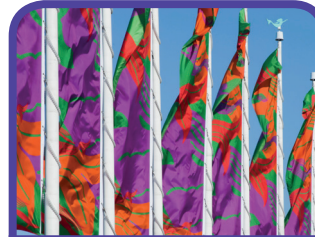

## Available Colors

SubliM packaged in 1 liter bottles and 5 liter containers. Other options are also available.
